4/15/94

Dear Gary,

Reur 4/11, when the statement is sent to Conyers et al, I hope you'll send me a copy. Thanks.

On the NRA letter, I do not know what Cakebread wrote them but from the picture there clearly are more than four grooves. As there were.

But that reminds me, years ago I had a source who claimed to have an NRA source. I was told that it had records disproving the Report. I do not know if that is true or if a copy can be obtained.

But in my first book I did report that the NRA provided the best shots it could for a Commission test at Aberdeen Proving Grounds and that under much better conditions they could not duplicate the shooting attributed to Oswald.

So, that alone could provide the basis for the NRA's having its own report on the Report.

Thanks and best,

Harold
